Top View:

This is the view from the top of the album.

The ribbons used to hold the album closed can be used to hold the album open. In this position, the album can be used as a table top album.

Note how the "Floor" of the album lies flat.

Opened View:

Here is the album in the open position.

Notice how the "Floor" folds up so when the album is closed, it compresses.

### Materials used:

**Stamps:** En Francais, Floral, Warm Words

**Cardstock:** Whisper White, Pink Pirouette, Riding Hood Red, Kiwi Kiss

**Designer Series Paper:** Bella Rose

**Ink:** Pink Pirouette, Riding Hood Red, Kiwi Kiss

**Accessories:** Whisper White Grosgrain, Silver Brads, Coasters

**Tools:** 1 1/4" Circle Punch, Paper Piercer, Bone Folder

### How to make the album:

(use attached cutting guide as reference)

- 1) Start with an 8" square piece of cardstock.
- 2) Score at 4" on each side (highlighted in yellow).
- 3) Fold on score lines.
- 4) Cut on the diagonal for each of the bottom squares from the outside corner to the center. Your remaining piece should look like the plate at home base (in baseball).
- 5) Score the middle of the bottom left triangle. It should radiate from the center of your piece. This score provides the bend to close the album.
- 6) Cut the bottom right triangle from the top point to the center. (This is the yellow highlight along with the dashed line.) It should run 4" in.
- 7) Note the \* drawn on the top right hand box and the bottom right hand triangle. Bring the asterisks together. This forms the pocket of the page.
- 8) Make four of these pieces. Adhere them together to form the album.
- 9) Take a 2' piece of ribbon and adhere it to the outside of the album. Use strong tape such as Sticky Tape. The ends should be hanging over the right side of the album.
- 10) Adhere coasters to the outside. This holds in the ribbon and makes the album sturdy.
- 11) The inserts measure 3" X 3".
- 12) Embellish and finish the album as desired.

# Cutting Guide
